

Unleash the full spectrum of white light with our tunable white precision lighting.

Seamlessly transition between warm and cool white light, creating the perfect ambiance for any setting.

Designed for daylight-synchronised lighting controls, it mimics natural light rhythms throughout the day, enhancing comfort and well-being.

With a slim 10mm width and high colour rendering (CRI 90+), it's ideal for shallow profiles like plastered-in and corner installations, delivering a flawless, modern finish.

FEATURES

CUT POINTS	25mm
