

Unleash the full spectrum of light with our colour changing COB LED.

Designed for seamless, dot-free illumination, this LED tape delivers both dynamic colour-changing and precise white temperature control.

With RGB channels and CCT technology, it shifts effortlessly from warm white to bright white while offering over 1 million vibrant colour combinations to create the perfect ambiance.

Ideal for shallow profiles like plastered-in and corner installations, it ensures a sleek, modern finish for any lighting project.

FEATURES

CUT POINTS	36mm
DENSITY	840 LEDs/p/m
