Voltage	24V

Light Characteristics

Colour Temperature 3000K Warm White

The Sub RGBW Spike Spotlight is a highly versatile and compact lighting solution that can add a special touch to any garden or outdoor space. With its integrated spike, this light is easy to install and can be repositioned with ease, allowing you to create the perfect lighting effect for your needs.

This colour changing spike light features a powerful combination of Red, Green, Blue, and 3000K Warm White LEDs that can be used to create a dazzling array of lighting effects. The small and 90° tilted head of the spotlight allows you to direct the light with precision, illuminating any corner of your garden or outdoor space.

Not only is the RGBW Spike Spotlight functional, but it's also stylish and durable, thanks to its textured black finish. Whether you're looking to highlight a specific feature or to create a simple and efficient path light, our LED spike spotlight is sure to impress.

With the easy connectors and accessories available (linked below), you can add extra spikes to the circuit, extending the coverage up to a maximum of 20m and a maximum of 12 lights per power cable. This makes it easy to illuminate even the largest outdoor spaces with ease and efficiency.

The integral LED light source of the SUB RGBW Spike Light is bright, efficient, and reliable making it the perfect choice for all your outdoor lighting needs.
